September 20, 2012

To: Paul Farrell
Farrell Roofing, Inc.

Paul,

I would like to commend Farrell Roofing for the outstanding work done this past summer on the Drake Hall Roof Replacement project. I do not think anyone at UD expected the quality of work that is displayed at completion, when this project began. Given the large number of penetrations, the work performed to provide this new roof is remarkable. Operations & Maintenance, for whom we actually replaced this roof, are very pleased with the finished product. Please pass this commendation along to the workers on this project. They should take pride in their efforts on behalf of Farrell Roofing on this project.

We look forward to working with Farrell Roofing on other projects in the future.

Sincerely,

Larry E. McGuire
Senior Project Manager
Facilities Planning & Construction
